Tools and environments

[Docker](https://docs.docker.com/), [Docker Compose](https://docs.docker.com/compose/), [Git](https://git-scm.com/), [Debian](https://www.debian.org/), Flash, Photoshop ...

Job experience

- **December 2017 - May 2018** : Remote lead PHP developer for [MoovOne](https://moovone.com/).
- **2016 - November 2017** : Lead PHP APIs developer at [People's Postcode Lottery](https://www.postcode.gov.uk/) (Edinburgh).
- **2014 - 2016** : Symfony / JavaScript consultant and developer for [KNP Labs](https://www.knp-labs.com/) clients.
- **2008 - 2014** : PHP / JavaScript / Ruby / Flash freelance developer, working with companies like [Le Monde](https://www.lemonde.fr/), [Mappy](https://www.mappy.com/), [Uzik](https://www.uzik.com/)...
- **January to May 2009** : Flash Lead Developer at [Tribal Nova](https://www.tribalnova.com/), Montréal, QC
- **2006 to 2007** : Flash / PHP Developer at "[Les Chinois](https://www.leschinois.com/)" (which was the most advanced ActionScript french Web Agency at that time)
- **2005** : Flash / PHP Developer at WCube (acquired by [Publicis Modem](https://www.publicis.com/) afterwards)
- **2000 to 2004** : Web Developer at [Lp digital](https://www.lp-digital.com/)

Some of the projects I worked on

- **Collector Square** : Symfony2 and JavaScript Lead Developer for the new version of the [Collector Square](https://www.collector-square.com/) website and CMS, heavily based on Elasticsearch and Redis
- **Balineia** : Symfony2 and JavaScript Lead Developer for the new version of the [Balineia](https://www.balineia.com/) platform - which includes the public website, a middle-office, a back-end, a public and a private API...
- **LeMonde.fr** : PHP, Node.js and Backbone developer at [LeMonde.fr](https://www.lemonde.fr/), one of the main French news web site.
- **Ruby on Rails Mail App** : Development of a mass mailing Web application for TV France International, based on Ruby on Rails
- **Mappy Mobile website** : Technical lead of the JavaScript development of the [mobile site](https://www.mappy.com/) of [Mappy](https://www.mappy.com/), based on Backbone. Member of the back-end Symfony2 team
- **Bopler Games, Facebook application** : Technical lead of the PHP development of the Facebook app [Bopler Games](https://www.bopler.com/), based on Zend Framework
- **Rodin Museum** : Technical lead on the [Rodin Museum](https://www.rodinmuseum.com/) development, based on Drupal and Zend Framework
